

Neumann English Camp

I am one of those lucky students who could participate in the fantastic English camp organized by Neumann János Secondary School. It took place right after finishing the school year in June. I was really looking forward to it very much as it gave us a great opportunity to meet our new classmates, teachers and get some useful pieces of information from the students from class 8.

After the teachers had divided the enthusiastic students into small groups, our first day started. All our activities were based on the topic 'Our town'. I really enjoyed creating a dream city with good places in it because besides using my fantasy, I could talk to my groupmates in English. We spent the afternoon admiring the life-like figures of the incredible marzipan museum.

On Tuesday a TV presenter visited us and we listened to his interesting presentation about the media: radio, newspapers, television. Everybody was encouraged to ask their questions connected with the topic.

Wednesday was the most exciting day of the five-day camp. We went on a day trip to the ecological park in Poroszló, which is said to be the first ecological park in Europe. Despite the unbearably hot weather I enjoyed every moment of it beginning from the journey to and back as well as walking on the paths near the lake, watching the different fish types in the aquarium, the reptile exhibition, not speaking about the 3D movie about the lake.

Thursday's topic was sport, hobbies and free time activities. I found it very useful to visit the library together where we walked around the different sections under the guidance of the librarian, who drew our attention to some interesting publications.

On the last day I really felt sorry for saying goodbye to my groupmates and finishing the series of entertaining programmes of the week.

It was really worth taking part in this camp. Everything was well-organized, the teachers did their best to make it as useful and interesting as it was possible.

I am sure everybody had a memorable time.
